# re-Max Eco-friendly

Design Christoph Jenni, 2018

Una nuova sensibilità condiziona la nostra gamma ed il nostro impegno a livello etico. Abbiamo deciso di seguire una direzione sostenibile. Le versioni completamente eco-friendly della collezione Max sono realizzate con materie prime (plastica e legno) ad un secondo ciclo di vita.

A new motivating and ethic purpose conditions our range and our commitment: we choose to adopt a sustainable attitude. The fully eco-friendly versions of Max collection are totally made from reclaimed materials (plastic and wood).

Un nouvel objectif éthique et motivant conditionne notre gamme de produits et notre engagement. Nous avons choisi d'opter pour une attitude écologique. Les versions complètement eco-friendly de la collection Max sont produites à partir de matériaux de récupération (plastique et bois).

Ein neuer motivierender und ethischer Zweck ist die Grundlage unseres Sortiments und unseres Engagements: wir haben uns fuer eine nachhaltige Haltung entschieden. Die komplett eco-friendly Ausfuehrungen von Max Kollektion sind mit zu 100% recyclebaren Materialien (Kunststoff und Holz) gefertigt worden.

## re-Max Eco-friendly Overview

**(P)E 7080**  
Quattro gambe  
polipropilene eco-friendly  
Four legs  
polypropylene eco-friendly  
Quatre jambes  
polypropylène eco-friendly  
Vier Beine  
Polypropylen eco-friendly
